The left stamp is drawn by the reader, the right one by this document. Only the right one is archivable.

Remarks that have a shape

Each of the five below is an annotation and not a drawing: it has a description, it can be switched off, and a reader lists it with the others. -colour is the outline and -fill the inside; a line and a polyline have no inside, so an -fill on them writes none.

line - square - circle (which is an ELLIPSE, the standard's word) - polygon - polyline

The delivery note belongs to this line
